

# Real progress is being M.A.D.E. in Madison

★ Prevention requires more than telling kids to “just say no”. There are fundamental relationships, opportunities and qualities that young people need to avoid risky behavior and to thrive. They are concrete and measurable.

★ Every two years, M.A.D.E. partners with the Madison school system to administer the Search Institute’s Attitudes and Behaviors Survey to youth in grades 7-12. The latest results are in and it’s time for a community conversation.

Following the survey briefing, a panel of students, parents, and fellow community members that serve on the M.A.D.E. coalition will be ready to answer questions on how we can continue to make progress through simple, everyday actions.

*Come listen to what our youth need from us.  
Be ready to talk and take action.*

*Everyone has a role to play and a voice to  
add to this critical ongoing effort.*
