

Let's find some

# Frogs & Toads

salamanders,  
tadpoles and  
polliwogs, too!

## Finding Amphibians: A Walk for Kids (and kids at heart)

Join amphibian researcher **Dave Skelly** as he explores the **Rockland Preserve**. We'll hunt for egg masses and tadpoles in the pond, search for salamanders along the trails and listen for the chorus of frogs and peepers everywhere.

## Saturday May 1, 2:00 pm

Meet at the **Renee's Way** parking lot.

The walk will last about 1 hour and will go about one half-mile.

**Don't forget your mud boots and nets** (if you have one)!
